COMP9334

Question 1

- An important part of performance analysis is to model the workload. In this question, you will look at a very simple model and we will generalise it to a very well known model in performance analysis in the lecture in Week 2.

T1,2021 COMP9334 2

Question 2

- This is a revision question on probability distribution which you should be able to solve if you have the pre-requisites.
- Consider a continuous probability distribution with sample space is [1,∞) and probability density function
 - f(x) = a / x'\lambda signament Project Exam Help
- What is the valu probability densi https://eduassistpro.github.io/
- What is the probability the paroedu_assist_proumber drawn from this distribution is exactly 10?
- Given this probability density function, what is the probability that a number drawn from this distribution has a value greater than 10?
